Contents

VOLUME 23, NUMBER 1, MARCH 1998
Published 17 March 1998

WILLIAM BLOCK, DAVID A. WHARTON and BRENT J. SINCLAIR
Cold tolerance of a New Zealand alpine cockroach, *Celatoblatta quinquemaculata* (Dictyoptera, Blattidae) 1–6

ROBERT BAUR, MEENA HARIBAL, J. ALAN A. RENWICK and ERICH STÄDLER
Contact chemoreception related to host selection and oviposition behaviour in the monarch butterfly, *Danaus plexippus* 7–19

B. P. EVANS, J. G. STOFFOLANO, C.-M. YIN and J. S. MEYER
The effects of injection of amphetamine on female insemination in the black blow fly, *Phormia regina* (Diptera: Calliphoridae) 20–24

BRONISLAW CYMBOROWSKI
Serotonin modulates a photic response in circadian locomotor rhythmicity of adults of the blow fly, *Caliphora vicina* 25–32

A. N. L. FIGUEIRAS and C. R. LAZZARI
Aggregation in the haematophagous bug *Triatoma infestans*: a novel assembling factor 33–37

SCOTT L. KIGHT
Precocene II modifies maternal responsiveness in the burrower bug, *Sehirus cinctus* (Heteroptera) 38–42

PHILLIP M. J. LODER, JOHN W. HARGROVE and SARAH E. RANDOLPH
A model for blood meal digestion and fat metabolism in male tsetse flies (Glossinidae) 43–52

TOYAMI KOTAKI
Effects of low temperature on diapause termination and body colour change in adults of a stink bug, *Plautia stali* 53–61

KLAUS H. VEENSTRA and DAVID N. BYRNE
Effects of starvation and oviposition activity on the reproductive physiology of the sweet potato whitefly, *Bemisia tabaci* 62–68

KEIJI NAKAMURA and HIDEHARU NUMATA
Alternative life cycles controlled by temperature and photoperiod in the oliophagous bug, *Dybowskyia reticulata* 69–74

IAN C. ROBERTSON
Flight muscle changes in male pine engraver beetles during reproduction: the effects of body size, mating status, and breeding failure 75–81

D. SCHOLZ, C. BORGEMEISTER, R. H. MARKHAM and H-M. POEHLING
Physiological age-grading and ovarian physiology of *Prostephanus truncatus* 81–90

R. SOCHA, J. SULA and R. ZEMEK
Feeding behaviour, digestive physiology and lipid content in macropterous females of *Pyrrhocoris apterus* (L.) (Heteroptera: Pyrrhocoridae) 91–96

VOLUME 23, NUMBER 2, JUNE 1998
Published 2 June 1998

HENAR ALONSO-PIMENTEL, JAMIE B. KORER, CESAR NUFIO and DANIEL R. PAPAJ
Role of colour and shape stimuli in host-enhanced oogenesis in the walnut fly, *Rhagoletis juglandis* 97–104

WINSTON J. BAILEY
Do large bushcrickets have more sensitive ears? Natural variation in hearing thresholds within populations of the bushcricket *Requena verticalis* (Listroscelidinae: Tettigoniidae) 105–112

JEFFREY A. HARVEY, LOUISE E. M. VET, NANQING JIANG and RIETA GOLS
Nutritional ecology of the interaction between larvae of the gregarious ectoparasitoid, *Muscidifurax raptorellus* (Hymenoptera: Pteromalidae) and their pupal host, *Musca domestica* (Diptera: Muscidae) 113–120

GLENN L. HOLBROOK and COBY SCHAL
Social influences on nymphal developement in the cockroach, *Diploptera punctata* 121–130

N. ISIDORO, E. BARTLET, J. ZIESMANN and I. H. WILLIAMS
Antennal contact chemosensilla in *Psylliodes chrysocephala* responding to cruciferous allelochemicals 131–138

ANDREW C. MASON and WINSTON J. BAILEY
Ultrasound hearing and male–male communication in Australian katydids (Tettigoniidae: Zaprochilinae) with sexually dimorphic ears 139–149

MARTIN J. PARR, BRUNO M. D. TRAN, MONIQUE S. J. SIMMONDS and PETER F. CREDLAND
Duration of behaviour patterns during oviposition by the bruchid beetle, *Callosobruchus maculatus* 150–157

THOMAS W. SAPPINGTON, PAUL HEIBLING, C. NOAH KOLLER and ALEXANDER S. RAIKHEL
Activation *in vitro* of vitellogenin uptake by the oocytes of the mosquito, *Aedes aegypti* 158–164

SPENCER T. BEHMER and ROBERT J. GREBENOK
Impact of dietary sterols on life-history traits of a caterpillar 165–175

KAREN E. VOSKAMP, C. J. DEN OTTER and N. NOORMAN
Electroantennogram responses of tsetse flies (*Glossina pallidipes*) to host odours in an open field and riverine woodland 176–183

MEI-LING Z. WEBB and DAVID L. DENLINGER
GABA and picrotoxin alter expression of a maternal effect that influences pupal diapause in the flesh fly, *Sarcophaga bullata* 184–191

VOLUME 23, NUMBER 3, SEPTEMBER 1998
Published 26 August 1998

E. A. BERNAYS, J. I. GLENDINNING and R. F. CHAPMAN
Plant acids modulate chemosensory responses in *Manduca sexta* larvae 193–201

M. BORGES, F. G. V. SCHMIDT, E. R. SUJII, M. A. MEDEIROS, K. MORI, P. H. G. ZARBIN and J. T. B. FERREIRA
Field responses of stink bugs to the natural and synthetic pheromone of the Neotropical brown stink bug, *Euschistus heros* (Heteroptera: Pentatomidae) 202–207

PETRA CHRISTIANSEN-WENIGER and JIM HARDIE
Wing development in parasitized male and female *Sitobion fragariae* 208–213

LARISSA E. COLLINS and ALISON BLACKWELL
Electroantennogram studies of potential oviposition attractants for *Toxorhynchites moctezuma* and *T. amboinensis* mosquitoes 214–219

HERBERT EICHENSEER, CHRISTOPHER A. MULLIN and SYLWESTER CHYB
Antifeedant discrimination thresholds for two populations of western corn rootworm 220–226

WULFILA GRONENBERG, C. ROBERTO F. BRANDÃO, BODO H. DIETZ and STEFAN JUST
Trap-jaws revisited: the mandible mechanism of the ant *Acanthognathus* 227–240

RUFUS ISAACS, DAVID N. BYRNE and DONALD L. HENDRIX
Feeding rates and carbohydrate metabolism by *Bemisia tabaci* (Homoptera: Aleyrodidae) on different quality phloem saps 241–248

SHIGERU KIKUKAWA, HIDESHI KUBOTA, HIROMI OHKOUCHI and KAORI TATEIWA
The effect of temperature and light pulses on the induction of diapause in the Toyama strain of the Indian meal moth, *Plodia interpunctella* 249–254

L. P. S. KUENEN and N. W. CALDERONE
Positive anemotaxis by *Varroa* mites: responses to bee odour plumes and single clean-air puffs 255–264

D. SCHOLZ, C. BORGEMEISTER and H.-M. POEHLING
EAG and behavioural responses of the larger grain borer, *Prostephanus truncatus*, and its predator, *Teretriosoma nigrescens*, to the borer-produced aggregation pheromone 265–273

MICHAEL T. SIVA-JOTHY, YOSHITAKA TSUBAKI and ROWAN E. HOOPER
Decreased immune response as a proximate cost of copulation and oviposition in a damselfly 274–277

WYNAND M. VAN DER GOES VAN NATERS and CORNELIS J. DEN OTTER
Amino acids as taste stimuli for tsetse flies 278–284

WYNAND M. VAN DER GOES VAN NATERS, CORNELIS J. DEN OTTER and DOMINIQUE CUISANCE
The interaction of taste and heat on the biting response of the tsetse fly *Glossina fuscipes fuscipes* 285–289

J. W. WEKESA, W. G. BROGDON, W. A. HAWLEY and N. J. BESANSKY
Flight tone of field-collected populations of *Anopheles gambiae* and *An. arabiensis* (Diptera: Culicidae) 290–294

VOLUME 23, NUMBER 4, DECEMBER 1998
Published October 1998

E. A. BERNAYS and M. S. SINGER
A rhythm underlying feeding behaviour in a highly polyphagous caterpillar 295–302

MAUREEN CARTER, KUSUM SACHDEV-GUPTA and PAUL FEENY
Tyramine from the leaves of wild parsnip: a stimulant and synergist for oviposition by the black swallowtail butterfly 303–312

UNA S. CHEUNG and J. J. BERRY SMITH
Ingestion of sugar diets correlates with spike activity in labellar chemosensilla of the flesh-fly, *Neobellieria* (= *Sarcophaga*) *bullata* 313–321

H. E. FARRIS, T. G. FORREST and R. R. HOY
The effect of ultrasound on the attractiveness of acoustic mating signals 322–328

B. GOBIN, C. PEETERS and J. BILLEN
Production of trophic eggs by virgin workers in the ponerine ant *Gnamptogenys menadensis* 329–336

MARTINE HAMEL, CLAUDE GERI and MARIE-ANNE AUGER-ROZENBERG
The effects of 20-hydroxyecdysone on breaking diapause of *Diprion pini* L. (Hym., Diprionidae) 337–346

N. B. KIFT, F. A. MELLON, A. M. DEWAR and A. F. G. DIXON
Analyses of the stomach deposit that develops in *Myzus persicae* feeding on sugar beet 347–353

J. G. KINGSOLVER and H. A. WOODS
Interactions of temperature and dietary protein concentration in growth and feeding of *Manduca sexta* caterpillars 354–359

A. D. LACHMANN
Sexual receptivity and post-emergence ovarian development in females of *Coproica vagans* (Diptera: Sphaeroceridae) 360–368

H. G. MCWATTERS and D. S. SAUNDERS
Maternal temperature has different effects on the photoperiodic response and duration of larval diapause in blow fly (*Calliphora vicina*) strains collected at two latitudes 369–375

J. E. MILES, J. S. BALE and I. D. HODKINSON
Life cycle regulation in the heather psyllid *Strophingia ericae*: responses to temperature and photoperiod 376–381

JAMES O. OCHANDA, EVA A. C. ODUOR, RACHEL GALUN, MABEL O. IMBUGA and KOSTA Y. MUMCUOGLU
Partial characterization and post-feeding activity of mid-gut aminopeptidase in the human body louse, *Pediculus humanus humanus* 382–387

T. M. SOLULU, S. J. SIMPSON and J. KATHIRITHAMBY
The effect of strepsipteran parasitism on a tettigoniid pest of oil palm in Papua New Guinea 388–398
